Thank you for purchasing Spectrum products!

(1) 0193628
VESA mount

(1) 0145893
Display Stand

(2) 0146027
Upright bar

Note: See p.2-3 for your specific credenza to determine upright bar installation procedure (together or apart).

Display Stand for AV Credenzas 55498

Assembly tip: Do not tighten component fasteners completely until all have been installed. Keeping them loose will help with alignment between parts during assembly.

Figure 1.1

Two-bay AV Credenza with single display

2-Bay Credenzas only:

Note: If installing the stand onto a 2-bay credenza, it will be necessary to remove the (4) screws shown from the credenza frames before installing the upright bars. **Figure 1.2**.

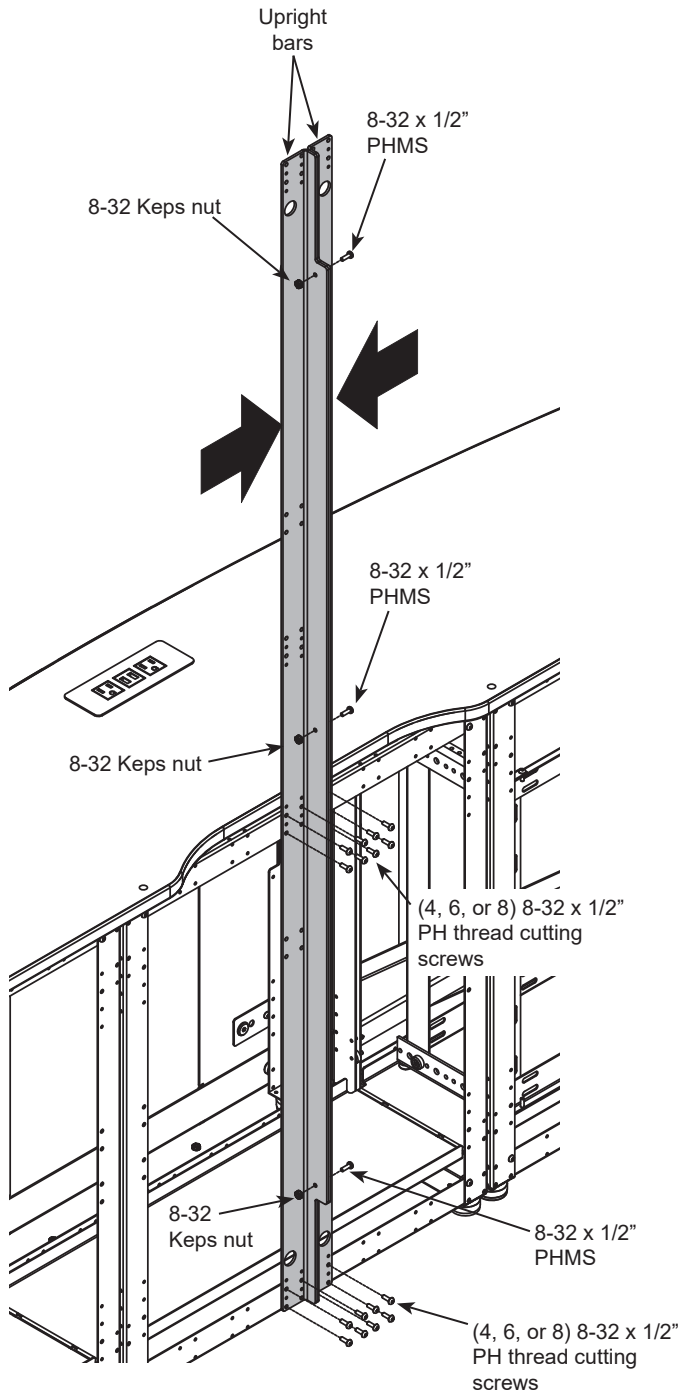

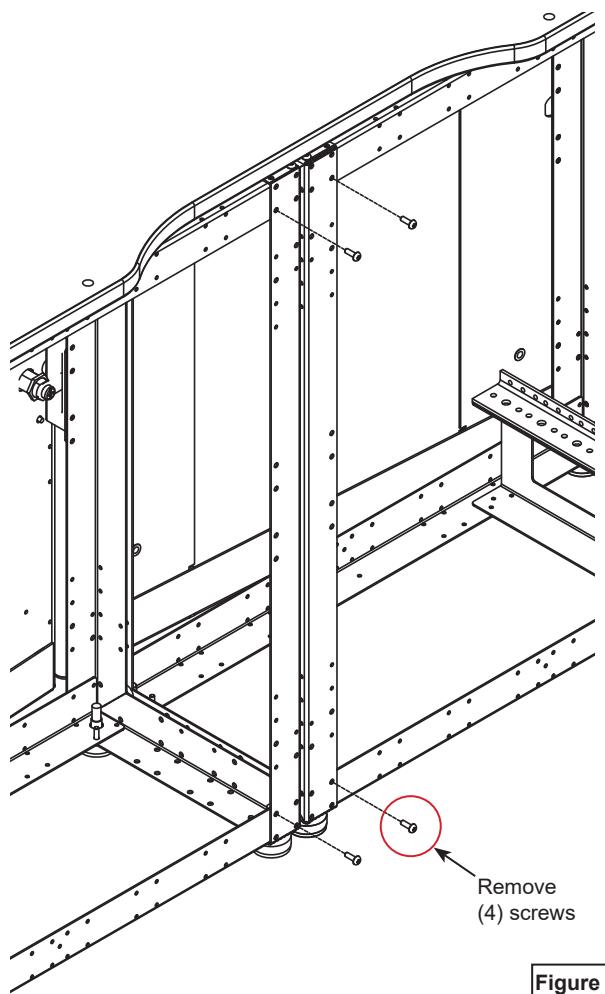

Remove (4) screws

Figure 1.2

1. Attach the (2) upright bars together with (3) 8-32 x 1/2" PHM screws and (3) 8-32 Keps nuts. **Figure 1.1**.
2. Attach the upright bars to the credenza with 8-32 x 1/2" PH thread-cutting screws.

Note: (4, 6, or 8) 8-32 x 1/2" PHM screws may be used at each upright bar attachment point-depending on bay configuration (1, 2, or 3-bay). Be sure a minimum of (4) are used at each location.

4. Install mount & monitor

Note: See instructions included with monitor mount for installation and setup.

Fixed TV mount

4mm

(4) 1/4-20 x 15mm JC bolts

Figure 4

5. Route wires

1. Route monitor wires through the grommets and down into the credenza. **Figure 5**.
2. Secure the stand to the worksurface with (2) 1/4-20 x 30mm JC bolts.

Display stand

Figure 5

Note: Display stand must be anchored securely to wall studs or a solid wall. (2) #8 x 1-1/4" PHSM screws are provided for wood use.

6. Install wall brackets

1. Remove the monitor.
2. Locate wall framing (if wall studs) and center the wall brackets on a stud. The bracket can be installed anywhere along the top edge of the display stand. **Figure 6**.
3. Slide the credenza up to the wall so the wall brackets contact the wall. Make sure the credenza is sitting level on the floor. If not sitting level, the glides can be adjusted to level.
4. Using the brackets as a template, drill suitable holes in the wall for the fasteners.
5. Secure each bracket to the wall with (1) wall fastener.
