Note: Spectrum Industries, Inc, manufactures furniture that supports a wide variety of power and communication devices from a variety of manufacturers. This table is compatible with many Extron®, Crestron®, Kramer®, ECA® and other devices. Spectrum does not resell these products; *please consult your electronic supplier* for the equipment that best suits your needs. Size specifications from the manufacturer can be used to verify the fit.

⚠️ **Note: Some controllers and devices require additional space around the cutout for clamping under the worksurface. Please double check your device specifications to ensure adequate space around the cutout.**

***When ordering a table or lectern with cutouts, specify complete details of the device(s) (brand, model number, cutout size, quantity, etc.) to the Spectrum sales rep when ordering.**

Note: Extron® Teamwork 400 package requires: (1) CC1200 cutout

Note: Extron® Teamwork 600, 601 packages require: (1) CC1400 cutout
