## EXPLORATION STATION

Store, Charge and Organize Devices, Headphones and More!

Designed with the front access cord management system, it's easy for kids to keep things orderly by charging tablets, iPads or phones directly on top of each storage bin cover.

Maximize storing and charging space in your classroom.

### Kid Friendly Design

- Station around the room to encourage social distancing
- Assign tote bins and devices to students to help minimize the spread of germs
- Removable, portable tote bins can hold individual projects or lessons
- Kid safe, rounded worksurface corners

### Simply Organized

- Keeps device charging and headphone storage neat and orderly
- Tote bins come in 4 colors (red, blue, green and yellow) with covers and can be arranged in any order
- 8-Unit Station comes with 8 tote bins and 16-Unit Station comes with 16 tote bins
- Small footprint saves valuable classroom space while providing optimal charging and storing capacity

### Superior Cord Management

- Front access cord management system keeps cords handy and organized
- Tablets, iPads or phones can be charged directly on top of each tote bin cover
- Maximum device size: 8.9"W x 11.5"D x 1"H (placed on top of tote bin cover)
- Holds up to 8 or 16 devices and headphones

### Quality Build

- Durable worksurface made from scratch and impact-resistant high-pressure laminate
- Powder coated, heavy-gauge steel construction is built to last
- Power strip(s) with surge suppressor and generous outlet spacing accommodate both inline and wall adapters

# MAKERSPACE CHARGING SOLUTIONS
