(1) 052311
3/8" Snap-in
grommet

(2) 0100195
3/8" Bushing

(2) 0107139
Door Stop

(2) 0102297
7mm x 30mm
JCWS

(1) 025039
4mm Hex
Wrench

Note: The door comes from the factory left-hinged. To switch the hinge-side, see Step 4.

Tools
Required

4mm Hex
Wrench
(Included)

1. Install Bushings and Door Stops

1. Determine if the door will be hinged from the left or right-side of the lectern when installed.
2. Install the (2) 3/8" bushings into the base panel holes. **Figure 1.**
3. Install the (2) door stops opposite the chosen hinge-side. (One in upper, and one in lower position.)

Figure 1

2. Install Door

1. Install (1) 3/8" Snap-in grommet into the upper corner of the door bay if one is not already installed. This will be the upper hinge point. **Figure 2A.**
2. Set the lower hinge point of the door into the lower bushing.
3. Push down the quick-release lever, align the upper hinge point, then release the lever. **Figure 2B.**
4. Close door.

Figure 2A

Figure 2B

3. Adjust Door Stop

The offset door stops can be rotated slightly to adjust the closed position of the door.

1. To rotate, loosen the JC screw slightly with a 4mm hex wrench. **Figure 3.**
2. Rotate each door stop until the door contacts both bumpers at the same time when closed. Also be sure the lock rods on the door will align and engage with the lock holes.
3. Re-tighten the JC bolt securely.

Figure 3

4. Switch Hinge-Side of Door - Optional

The door can easily be removed for easier access using the quick-release hinge lever located on the upper hinge pin of each door. **Figure 4A.** To remove, push down the lever while lifting out the door.

The door can be installed to be hinged from the left or right-side.
To switch the hinge side:

1. Remove the door using the quick-release lever. **Figure 4B.**
2. Rotate the door 180°. **Figure 4C.**
3. The vented panel should be located on the bottom of the door.
Switch the lower vented metal panel with the upper acrylic panel (requires removing or loosening 8-32 nuts.) **Figure 4D.**
4. Switch the corner hinge components as shown and tighten securely.
5. Re-install the door.
