Technical Specifications

Features and Benefits

- Stacked design stores and charges up to 16 tablets, Chromebooks™, or notebooks in one small footprint
- Overall dims: 18”W [45.72 cm] x 17”D [43.19 cm] x 26.8125”H [68.11 cm]
- Device shelves are undercut to make it easier to remove devices
- Single cam lock with magnetic closure provides added security
- Rubber feet prevent locker from sliding on surfaces
- Separate locking power bay provides storage for inline adapters. Provides easy-access to electrical power while keeping line voltage, wiring, and cords away from students
- Shelf can be removed to create more space for wall adapter storage
- 16-outlet (125V~/12A, 60Hz) power unit works with both inline, and wall adapters
- Internal on/off switch
- Outlets work with in-line and our 65W USB-C PD AC adapters
- Cord management system keeps charge cords organized next to each storage bay
- Long, 12’ power cord provides easy access to outlets
- Ventilated door and side panels keep devices cool, preventing overheating, and extending device life
- Magnetic catch on power-side door prevents opening when unlocked
- Rear grommet for power cord management
- Locker ships fully-assembled for quick, simple integration and deployment
- Durable powder coated steel chassis provides a long lasting finish
- Warranted to be free of all defects in materials and workmanship for 10 years, electrical system 2 years
- Designed and assembled in Chippewa Falls, WI, USA

Use the Connect16 Locker to store and charge up to 16 devices in one location. (most Chromebooks™, tablets, or notebooks up to 15")

Color Options

- Warm Gray (metal)
- Black (laminate)
Construction

- The top and base are constructed from 3/4" thick composite board with .030" high-pressure laminate on one face, and a balancing phenolic backer on the opposing face
- Metal components consist of 16-gauge steel
- 20-gauge side panels, shelf supports and doors
- Device shelves are ABS plastic
- All metal components are finished with a scratch-resistant powder coat epoxy
- Each Connect16 Locker is factory-assembled

*Specifications subject to change without notice*
Note: The customer should be aware of the amp draw of the devices used with this cart—especially when maxing out the storage and charging capacity. Exceeding 15 amps will trip the circuit breaker. Please consult the owners manual of your specific device for power consumption information.

Total watts required per cart (estimated) = Number of devices \times Charger wattage

(Max 1,800W)

Note: The customer should be aware of the amp draw of the devices used with this cart—especially when maxing out the storage and charging capacity. Exceeding 15 amps will trip the circuit breaker. Please consult the owners manual of your specific device for power consumption information.

Specifications:
• Model: HA712
• Input: 100-240V ~ 50/60Hz 1.5A
• Output (USB-C PD): 5V~3A 9V~3A 12V~3A 15V~3A 20V~3.25A
• Dimensions: 1.97” x 1.97” x 1.10” (50mm x 50mm x 28mm)
• Net Weight: 3.42 oz [97 g]
