

NEW

CONNECT16 LOCKER

Charge and store up to 16 devices
in one location

The small footprint takes up minimal surface space,
while keeping devices organized
and easy to manage

Cable management system keeps cords organized next to each bay

SMART DESIGN

- Stacked design supports charging and storage in a small footprint
- Device shelves are undercut to make it easier to remove devices
- Separate locking bay provides ample space for storing in-line adapters
- Holds devices up to 15"
- Rubber feet prevent locker from sliding on surfaces
- Durable powder coat provides a long-lasting, easy-to-clean finish

CONVENIENTLY WIRED

- Cable captivation with slotted pass throughs make wiring quick and easy
- Outlets work with in-line and our 65W USB-C PD adapters
- Shelf can be removed to create more space for wall adapter storage
- Internal on/off switch keeps power access away from students
- Long, 12 foot power cord provides easy access to outlets

SAFE AND SECURE

- Scratch and impact-resistant high-pressure laminate worksurface and base
- Heavy-gauge steel construction keeps devices safe
- Ventilation keeps devices and adapters cool, preventing overheating, and extending device life
- Single-point, keyed locks on heavy-gauge steel doors provide added protection for your devices
- Magnetic catch on adapter door prevents door from opening when unlocked

STATIONARY COMPUTING SOLUTIONS
