37251 - 24"D Half-Round

37252 - 30"D Half-Round

Tools
Required

Phillips
screwdriver

Glide
wrench

Table Assembly

1. Place worksurface face-down onto a non-abrasive surface.
2. Attach the legs to the worksurface using 1/4-20 x 5/8" PHM screws and tighten securely. **Figure 1.**
3. Attach the glides to the legs. Tighten securely with glide wrench.
4. Carefully flip the table upright-this may require two people.

Figure 1

Note: Unit-to-unit brackets are included with straight training tables. For stability reasons, half-round tables are designed to be connected to adjacent tables and are not recommended for stand-alone use. If a more temporary arrangement is preferred, the easily removable 1/4-20 thumbscrews can be used on the unit-to-unit brackets instead of Phillips screws.

Connecting half-round tables

1. Arrange the tables side-to-side in the preferred location.
2. Attach the unit-to-unit brackets to both table worksurfaces as shown with 1/4-20 x 5/8" PHM screws and tighten securely. **Figure 2.**
